

¹ Undersigned was served and received Reply Comments only in the Overton and Ravenna proceedings. The Reply Comments in the Ravenna proceedings state that similar reply comments were filed in the Paxton, Hershey and Sutherland proceedings. *Reply* at n. 1.

helpful information and to point out that at least one of the main precedents relied on by Central Nebraska, *Breeze Broadcasting Company, Ltd.*, 8 FCC Rcd 1835 (1993) was reversed by the Commission.²

Central Nebraska relies on precedent from the now abandoned comparative hearing era as support for its claim that in a rulemaking proceeding an applicant must demonstrate its financial qualifications. The Review Board decision cited by Central Nebraska was reversed.³ The Commission has in the past specifically rejected efforts within the channel allocation proceeding to consider other issues beyond technical requirements and a *bona fide* expression of interest in applying for the allotment. As noted by the Commission in *Tylertown, Mississippi*, 1999 FCC LEXIS 1150 at ¶8 (March 19, 1999), in the face of alleged misconduct, "[i]t would not be conducive to the efficient transaction of Commission business to expand the scope of an FM allotment rule making proceeding to other issues..... the allotment rule making proceeding is not the appropriate forum to resolve such an issue. Rather, in regard to the Tylertown allotment, Guaranty Broadcasting will have an opportunity to file a Petition to Deny the TRL Broadcasting Application for this allotment. [citations omitted]."

Similarly, in *Morristown, New York*, 5 FCC Rcd. 6976 (1990), the Commission rejected a "mass filer" argument that challenged the *bona fides* of an applicant's intent to build and operate a station. The opposing petitioner requested that the Commission hold the rule making proceeding

² Mountain West recognizes that Commission rules do not contemplate submission of a Response to a Reply. However, good cause exists to consider this Response and Mountain West requests that this Response be considered and accepted. The Reply Comments of Central Nebraska should have more properly been filed as comments since its argument deals generally with Mountain West's proposals to allocate channels and not with Mountain West's comments filed in this proceeding. Indeed, it appears that Central Nebraska filed its comments in a Reply to avoid a response. The Response provides information which may be helpful to the Commission.

³ Central Nebraska states at Page 5 of its Reply, "In fact, the Commission has stated that an applicant bears 'the burden of showing that [it] was able to meet all his other outstanding financial commitments and the present broadcasting financial proposal.' *Breeze Broadcasting Company, Ltd.*, 8 FCC Rcd 1835 (1993)." The Commission, however, later reversed the Review Board, specifically noting, "We do not agree, however, with the unqualified assertion that Miller [the applicant] has the burden of showing in this proceeding that he is financially qualified with respect to all of his pending applications." *Breeze Broadcasting Company, Ltd.*, 13 FCC Rcd. 22548 at ¶ 17 (November 6, 1998).

in abeyance pending an inquiry into whether the allotment petitioner had a *bona fide* intent, whether he was financially qualified, and whether he violated Commission multiple ownership and translator rules. *Id.* at ¶2. Despite the petitioner's involvement in multiple prior rule makings, in which it did not file for all the allocations requested, the Commission rejected the opposing petitioner's argument. The Commission noted that there is no "Commission rule that requires a petitioner to honor its commitment to file an application for a channel that it has requested," *Id.* at ¶4, and further noted that it was inappropriate to require petitioner to demonstrate its financial ability, an issue more appropriately raised with an actual application. *Id.* at ¶4.

Without offering any facts relating to Mountain West's financial wherewithal, financial plans or arrangements, or relating to Mr. Michael's wherewithal, Central Nebraska simply concludes, "Mountain West is woefully incapable of constructing all of the stations it has proposed to construct." The Commission has ruled that the type of speculative abuse alleged by Central Nebraska is insufficient to deny an application for allotment. *See Morristown, New York*, 5 FCC Rcd. 6976 at ¶4 (Nov. 20, 1990) ("Petitioner has stated and restated its intention to apply for the channel, if allotted, and Wireless has not presented sufficient evidence to find that petitioner's statement is not *bona fide*."); *Tylertown, Mississippi*, 19999 FCC LEXIS 1150, DA 99-531 (March 19, 1999) ("There is nothing in the record of this proceeding or any other proceeding, beyond the speculation of Guaranty Broadcasting, that would suggest that Henderson will not file an application for the Tylertown allotment.")⁴

Central Nebraska implies that Mountain West or Vic Michael lack the financial wherewithal to participate in the auctions for these various allocations. As noted by the Commission in its *Report*

⁴ Central Nebraska takes issue with Mr. Michael's \$50,000 cost estimates for applications filed for Newcastle, Wyoming; Victor, Idaho; Franklin, Idaho; and Hope, North Dakota. Central Nebraska arbitrarily claims that the figure should be \$200,000 per station. *See Reply* at n. 4. Mr. Michael, along with his brother Van Michael, have developed and constructed many new radio stations, not only for themselves, but for other operators as well. The Michael brothers have the expertise to construct stations from the ground up. Because of this, they can construct stations very cost effectively. This, coupled with new operating efficiencies, such as computerization and automated programming, make it possible to provide new FM service to communities that may not have been able to support a station until recently.

and Order (Pleasant Dale, Nebraska), *supra* at ¶5, the record demonstrates otherwise. Michael Radio Group (owned 50% by Vic Michael) not only submitted the requisite payments to participate in the auction for new FM channels at Driggs, Idaho; Franklin, Idaho; and Weston, Idaho; but it actively participated in numerous rounds and was the second highest bidder in each market. (See Attachment 1.) Mr. Michael has over the years been involved in many allotment proceedings and at no time was there ever a finding that any Petition he filed was anything other than bona fide. In addition to the above allocations involved in the auction, Michael Radio Group or Vic Michael petitioned to allot and then filed applications in the following communities: Channel 282A, Victor, Idaho (File No. BPH-970815MF) (settlement pending); Channel 252A, Glenrock, Wyoming (File No. BPH-971010MG) (settlement pending); Channel 261C1, Glendo, Wyoming, station KUUY(FM) (near completion); Channel 298C, Midwest, Wyoming, station KRVK(FM) (recently sold); Channel 298A, Superior, Montana station KREO (construction permit); Channel 272A, Randolph, Utah, station KAIO (construction permit assignment application granted and consummated); and Channel 261A, Forest City, Pennsylvania (settlement agreement recently filed). Mr. Michael has also over the years been the owner/operator of numerous radio stations, which is a matter of public record at the FCC.⁵ He is also familiar with virtually every aspect of broadcast operations, including the technical, managerial and operational aspects. As noted by the Commission in the *Report and Order* (Pleasant Dale, Nebraska), "[Petitioner] has not provided any information showing that Mountain West or any corporate entity which Victor Michael is the principal is financially unable to participate in the auction for the channel, if allocated, and to construct and operate, if granted, the construction permit." *Id* at ¶5.

⁵ Mr. Michael began his career in radio in 1977 as an announcer and, since then, has served as chief engineer of several radio stations, and has been the owner/operator of numerous radio stations. Mr. Michael is or was the owner, or part owner, of numerous companies which owned the following stations: WBNE(FM), Benton, Pennsylvania; WJKR(FM), Muncy, Pennsylvania; WHOE(FM), Avis, Pennsylvania; WCOI/WNKI(FM), Corning, New York; KUUY/KKAZ(FM), Cheyenne, Wyoming; KFBQ(FM), Cheyenne, Wyoming; and KLEN(FM), Cheyenne, Wyoming. He currently has ownership interests in KRKI(AM) and KEZZ(FM), Estes Park, Colorado; and KTRS(FM)/KMLD(FM)/KYOD(FM), Casper, Wyoming.

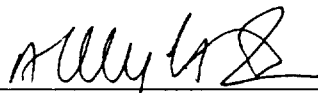

Finally, as a policy matter, requiring the Commission to investigate the financial fitness and *bona fide* intent of each petitioner for an FM allotment, even if no actual abuse by such petitioners is evident, would create a great administrative burden, both on the Commission and on the petitioners, delaying petitions for new FM allotments, and generally deterring applications. Not only has the Commission refused to involve itself in financial qualifications issues at the rule making stage, it no longer even concerns itself with financial qualifications at the application stage. In the *Commission's Implementation of §309(j) of the Communications Act / Competitive Bidding for Commercial Broadcast Stations, First Report and Order*, FCC 98-194 (released August 19, 1998), the Commission eliminated the financial certification requirement from the long Form 301 applications. The Commission noted, "adjudicating issues relating to whether the winning bidder had reasonable assurance of site availability or was financially qualified would waste the resources of the Commission and of the parties and would serve only to delay service to the public." *Id* at ¶ 99.

CONCLUSION

Central Nebraska's Reply arguments should be rejected. It offers no more than speculation and unfounded conjecture to support its claims that Victor A. Michael, Jr. lacks the requisite *bona fide* intent to file for and construct stations in the communities proposed. On the contrary, the evidence and past history, including the recent active participation by Michael Radio Group in the Broadcast Auction demonstrates the *bona fides* of the requested allocations.

Respectfully submitted,

MOUNTAIN WEST BROADCASTING
